## WORK

### TECH INNOVATORS | Senior Software Developer

Apr 2021 - Present

- Utilized extensive experience in front-end development to define project structures and components for reusability
- Maintained high code quality by reviewing code from other developers and suggesting improvements
- Collaborated with designers to translate design concepts into functional code
- Contributed to E-commerce maintenance with Fastcommerce, a Brazilian e-commerce platform

### DIGITAL SOLUTIONS LTD. | Software Developer

Jun 2015 - Dec 2017

- Developed web applications based on Sharepoint, Drupal 8, and Episerver
- Led a team of 10 front-end developers, providing support to the client's multi-cultural team, offering feedback, clarifying requirements, and assisting with technical questions
- Ensured project progress updates were communicated to the Project Manager and IT Leads
- Maintained code and features implemented by other developers in accordance with requirements

### INNOVATE TECH SOLUTIONS | Trainee Developer

Aug 2011 - May 2015

- Designed user-friendly interfaces and exceptional user experiences for digital platforms of small companies
- Conducted Wordpress development, including theme creation or customization, custom plugin development, and training
- Contributed to E-commerce maintenance with Fastcommerce, a Brazilian e-commerce platform
- Developed E-commerce solutions with Magento, customizing preexisting themes and integrating external services such as payment and delivery into Magento solutions

## PROJECTS

### PORTFOLIO WEBSITE

- Developed and maintained a dynamic personal portfolio website.
- Showcased projects and skills in HTML, CSS, and JavaScript.

### E-COMMERCE PLATFORM

- Contributed to building and maintaining an e-commerce platform.
- Used React, Redux, and Firebase to enhance user experience and functionality.
